Mr. R. Jay Marshall  
Genwal Coal Company Inc.  
P. O. Box 1201  
Huntington, Utah 84528

Dear Mr. Marshall:

Re: Clean up of Outstanding Mining and Reclamation Plan Items, Denial of Amendments 91A, 91F, 92F, and 92H, Genwal Coal Company, Crandall Canyon Mine, ACT/015/032, Folder #3, Emery County, Utah

On April 16, 1993 the Division received the maps you had submitted to satisfy Division Order #92A. After a cursory review the maps appear to satisfy our requirements with one noted exception. They are not certified as required by R645-301-612 and R645-301-512. We are therefore returning the maps for your further attention. The Division Order will remain in effect until the corrected maps are returned.

There are other items that have been pending approval and whose status needs to be further clarified. These include Amendment 91A (revised Chapter 7), Amendment 91F (revised Chapter 3), Amendment 92F (revised Chapter 14), and Amendment 92H (revised Chapter 8). Each of these amendments have been going through the review process with the associated variety of correspondence. At this time it appears that each of the chapters has been superseded by the recent Permit Renewal Application. We are now focusing our attention to the renewal and no longer consider the previous amendments current. Therefore, Amendments 91A, 91F, 92F, and 92H are hereby denied. Hopefully, the Renewal Application will have addressed any changes that needed to be made. We still await the response to deficiencies found in the Renewal Application.

Please call if you have any question.

Sincerely,

Daron R. Haddock  
Permit Supervisor

Enclosure
